Archiving
United LGBT Press
World Communications

QPI - Queer Press International. There is UPI and AP etc. Now there is **QPI** Queer Press international.

QPI is a global network of LGBTetc Press united in exchanging up to the minute information. News from the four corners of the globe. **QPI** is member supported by participation in the exchange of data and monetary support. The fees are on a very generous sliding scale to avoid the information rich and the information poor.

QPI is available via email. All members can send articles and *news bites* to **QPI** and this news will be categorized and emailed off to the membership on a very regular basis. Members that would prefer can FTP email and retrieve the information at their own pace. The **QPI** wire service and articles will be archived for a certain amount of time at the GLU FTP archive site.

Upon sufficient demand:
QPI will be providing electronic wires from either UPI or USA Today.
Complete archives of publications.
Telnet global BBS services.
And much much more.

For further information on how you or your organization can plug into the world contact **QPI** today at:
