

THRIVE

WHAT ARE THE BENEFITS OF THRIVE FOOD ?

- ☒ **DELICIOUS:** THRIVE food is the best tasting, highest quality food storage available. From the enamel lined cans to their rigorous quality control standards, THRIVE foods are simply the best long term products available.
- ☒ **SAVE MONEY:** Reduce waste—no more having to throw out food that has gone bad before you can use it. With THRIVE, you take the exact amount of food you need from the #10 or pantry size cans, then place on the shelf for later.
- ☒ **25 YEAR SHELF LIFE:** The average optimum shelf life for THRIVE foods is 25 years unopened and 1-2 years once opened.
- ☒ **HEALTHY SNACKING:** THRIVE makes it so easy to eat healthy with a large variety of fruits and vegetables. Kids choose freeze dried fruits and vegetables over processed or sugary foods. Adults love the fact that their family is eating healthier and establishing good habits.
- ☒ **MORE TIME:** Less chopping, cutting, slicing and dicing means more time for you to do things that are most important to you. Never chop onions again.
- ☒ **NUTRITIOUS:** The freeze dried process naturally preserves food without sacrificing any nutrition, flavor or taste. THRIVE fruits and vegetables are garden fresh as opposed to grocery fresh.
- ☒ **CONVENIENCE:** THRIVE food is pre-cooked and perfectly portable. No more smashed bananas, bruised apples or strawberries that require refrigeration. THRIVE foods are easy to take with you anytime, anywhere.
- ☒ **QUICK, EASY & NUTRITIOUS MEALS:** Nutritious meals can be prepared quickly with THRIVE food. Delicious, easy to make recipes are listed on every can of THRIVE and the Shelf Reliance website.
- ☒ **LESS TRIPS TO THE GROCERY STORE:** Having a variety of healthy THRIVE foods regularly available = less trips to the grocery store which saves you time, reduces impulse buying and saves you money.

There are three sizes of tracks designed to hold various sizes of cans. Standard configuration refers to the number of rows of a particular system.

S = Small row. Holds regular cans, i.e. tuna, vegetable, soup.

M = Medium row. Holds medium cans, i.e. larger fruit.

L = Large row. Holds #10 or gallon size cans.

D = Drawer row. Holds an area of 32" x 17.5".

*Pouch size has a maximum closed shelf life up to 5 years. In the correct storage container, low-moisture foods stored in dry areas at room temperature or cooler (75°F/24°C or lower) can remain nutritious and edible for years. Studies show that even after being stored long-term, properly packaged food will help sustain life in an emergency.

The shelf life stated on all of Thrive Life's® products is based on a "will sustain life" shelf life. This means that although time and heat may degrade the nutrition, color, and texture of all foods, our products will still be safe to eat and will sustain life through the stated shelf life.

+ **Gluten-Free Certified:** Products are currently under review and will be Certified Gluten-Free once review process is complete.

+ **No GMO:** Products are currently under review and will be changed to non-GMO status once process is complete and if products exist that meet our standards of taste, quality and price.

NG **Gluten-Free Certified:** These products are naturally gluten-free; however the process to certify them gluten-free is lengthy. We are working towards certifying them in the future.

Though Thrive Life provides this comprehensive tool, please remember to read through each label before consuming any of our products to ensure consumption is safe for those with allergies or other reactions to foods.

The information in this document is intended to provide you with a comprehensive tool, however it is subject to change and only contains information on products currently offered.

All Thrive products are free of MSG.
